## CENTRAL SURGERY PATIENTS' ASSOCIATION

The Patients' Association was formed in 2003.

There are 9 members from Central Surgery, which includes :

Dr Lucy Armstrong,

Kerry Crutchlow the Practice Manager,

Tina Havelock Corporate Assistant, are also members.

The aims of the association :

- To act as a point of information both into and from the practice and the practice population.
- To enhance the practice population's understanding of how the practice operates.
- To increase patients' understanding, concerning the treatment choices available.

## CENTRAL SURGERY DR NIGEL GOSTICK

Dr Gostick, was the Senior Partner for Central Surgery for many years. He retired from the surgery several years ago, and moved to Kilsby, where he spent his retirement until his death, in January 2024 aged 86 years.

The funeral was held at Bilton Evangelical Church. It was attended by various retired doctors and former members of staff of Central Surgery. The congregation was warmly welcomed there as Nigel had made connections with the church through his model railway interests and he worshipped there.

Dr Cotteril spoke about Nigel at the service, and in particular about Nigel's progressive approach to general practice - some are still in place today :

- Modernise the building
- Booking appointments system
- Out of hours service

He led the way in improving G P Services in Rugby, at the present buildings in Rugby and setting up the surgery in Bilton, was a major undertaking.
